Date of production of the KID	26/01/2024

You are about to purchase a product that is not simple and may be difficult to understand.

#### 1. What is this product?

### Type Structured bond

Term

leini

#### Objectives

(Terms that appear in bold in this section are described in more detail in the table(s) below.) The product has a fixed term and will be due on 23 February 2028, subject to an early redemption.

The product is designed to provide a return in the form of a cash payment on termination of the product. The timing and amount of this payment will depend on the performance of the **underlyings**. The payment at maturity will not exceed GBP 1,625.60. If, at maturity, the **final reference price** of the **worst performing underlying** has fallen below 50.00% of its **initial reference price**, the product may return less than the **product notional amount** or even zero.

described in more detail in <u>Early termination following an autocall</u>: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the table(s) below.) **reference price** of the **worst performing underlying** is at or above the relevant **autocall barrier price**. On any such early termination, you will on the immediately following **autocall payment date** receive a cash payment equal to the applicable **autocall payment**. The relevant dates, **autocall barrier prices** and **autocall payments** are shown in the table(s) below.

Autocall observation dates	Autocall barrier prices	Autocall payment dates	Autocall payments
16 August 2024	95.00%*	23 August 2024	GBP 1,078.20
18 November 2024	95.00%*	25 November 2024	GBP 1,117.30
18 February 2025	95.00%*	25 February 2025	GBP 1,156.40
16 May 2025	95.00%*	23 May 2025	GBP 1,195.50
18 August 2025	95.00%*	26 August 2025	GBP 1,234.60
17 November 2025	95.00%*	24 November 2025	GBP 1,273.70
17 February 2026	95.00%*	24 February 2026	GBP 1,312.80
18 May 2026	95.00%*	25 May 2026	GBP 1,351.90
17 August 2026	95.00%*	24 August 2026	GBP 1,391
16 November 2026	95.00%*	23 November 2026	GBP 1,430.10
16 February 2027	95.00%*	23 February 2027	GBP 1,469.20
17 May 2027	95.00%*	24 May 2027	GBP 1,508.30
16 August 2027	95.00%*	23 August 2027	GBP 1,547.40
16 November 2027	95.00%*	23 November 2027	GBP 1,586.50
16 February 2028	70.00%*	Maturity date	GBP 1,625.60

\* of the initial reference price of the relevant underlying.

Termination on the maturity date: If the product has not terminated early, on the maturity date you will receive:

- 1. if the **final reference price** of the **worst performing underlying** is at or above 70.00% of its **initial reference price**, a cash payment equal to GBP 1,625.60;
- 2. if the **final reference price** of the **worst performing underlying** is at or above 50.00% of its **initial reference price** and below 70.00% of its **initial reference price**, a cash payment equal to GBP 1,000; or
- 3. if the **final reference price** of the **worst performing underlying** is below 50.00% of its **initial reference price**, a cash payment directly linked to the performance of the **worst performing underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** of the **worst performing underlying** divided by (B) its **initial reference price**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlyings**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

You do not have any entitlement to a dividend from any of the **underlyings** and you have no right to any further entitlement resulting from any such **underlying** (e.g., voting rights).

#### Performance scenarios

#### s on future market performance. Market developments in the fut cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very

Recommended holding period:		Until the product is called or matures		
		This may be different in each scenario and is indicated in the table		
Example investment:		GBP 10,000		
Scenarios		lf you exit after 1 year	If you exit at call or maturity	
Minimum	There is no minimum guaranteed retu	rn. You could lose some or all of	your investment.	
Stress	What you might get back after costs	GBP 788	GBP 250	
(product ends after 4 years)	Average return each year	-92.06%	-60.25%	
Unfavourable	What you might get back after costs	GBP 3,001	GBP 1,160	
(product ends after 4 years)	Average return each year	-69.89%	-41.64%	
Moderate	What you might get back after costs		GBP 10,782	
(product ends after 6 months)	Percentage return (not annualised)		7.82%	

Favourable	What you might get back after costs	GBP 10,458	GBP 12,737
(product ends after 1 year	Average return each year	4.57%	14.80%
and 9 months)			

The stress scenario shows what you might get back in extreme market circumstances. The favorable, moderate and unfavorable scenarios have been calculated using 10,000 simulations based on the underlying asset's past performance and represent the 90th, 50th and 10th percentile outcomes, respectively.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Payments made to a client during the life of a product requires BBVA to make certain assumptions. This is for the purpose of undertaking scenario analysis and the calculation of product profitability as shown in the table. BBVA has decided not to capitalize these payments.

# 3. What happens if BBVA Global Markets B.V. is unable to pay out?

Banco Bilbao Vizcaya Argentaria, S.A. guarantees the payment obligations that the Issuer assumes in the Product, in its same terms. The Product is not covered by the Credit Institutions Deposit Guarantee Scheme or any other guarantee scheme. In the event that BBVA as guarantor could not pay, you would face a financial loss. In the event of the resolution of the Guarantor of such financial instrument (applicable process when the Guarantor is insolvent or it is expected that it will become insolvent in the near future and due to public interest and financial stability it is necessary to avoid its insolvency), such product could be converted into shares or its Nominal Amount and, as a result, you could make losses in their investment.

### 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different investment periods.

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- GBP 10,000 is invested
- a performance of the product that is consistent with each holding period shown.

	If the product is called at the first possible date, on 23 August 2024	If the product reaches maturity
Total costs	GBP 1,050	GBP 1,050
Annual cost impact*	12.6%	3.2% each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 16.1% before costs and 12.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

One-off costs upon entry or exit		
Entry costs	10.5% of the amount you pay when entering this investment. These costs are already included in the price you pay.	GBP 1,050
Exit costs	1.5% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If an early redemption occurs or if you hold the product until maturity, no exit costs will be incurred.	GBP 150
	Ongoing costs taken each year	
Management fees and other administrative or operating costs	0.0% of your investment amount per year. This is an estimate of the actual costs.	GBP 0
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 0

## 5. How long should I hold it and can I take money out early?

## **Recommended holding period: 4 years**

This Product doesn't allow the Client to cancel his investment. However, under normal market conditions, BBVA may facilitate to the client the price at which BBVA is able to buy it. Such a price will be calculated subtracting (i) from the fair value of the Product calculated by BBVA in accordance to the market variables and methodologies commonly used in market (ii) an estimated cost of 1.5% over the Nominal Amount. This anticipated sale may generate a financial loss to the Client.

# 6. How can I complain?

Customer Service. P.O. Box Apdo. Correos 1598. 28080 Madrid. e-mail: reclamacionesSAC@bbva.com. Telephone: +34 915 378 385. Web: www.bbva.es. For claims related to the sale or advice of this Product by an entity other than BBVA, please contact the entity which sold you or advised you about the Product.

# 7. Other relevant information

For further information about the functioning and risks of this Product, contact the entity which advises you or which is going to sell the Product to you. Prospectus registered with the Central Bank of Ireland. The Product will be issued under the most recent version of the Prospectus of the Issuer, which is available on the website of BBVA (https://shareholdersandinvestors.bbva.com/debt-investors/programas/structured-medium-term-note/). The Client should also check the issue terms of the Product. According to the Prospectus, the Product is governed by English law and the Client submits to the jurisdiction of the English courts.

# Composition of costs
