Date of production of the KID	06/06/2024

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type	Structured bond		
Term	The product has a fixed term and will be due on 12 December 2024.		
Objectives	The product is designed to provide a return in the form of a cash payment on the maturity date . The amount of this payment will depend on the performance of the underlying . The payment at maturity will not exceed EUR 1,200.00. If, at maturity, the final reference price of the underlying has fallen below 75.00% of the initial reference price , the product may return less than the product notional amount or even zero.		
(Terms that appear in bold in this section are described in more detail in the table(s) below.)	On termination of the product on the maturity date you will receive:		
	- if the final reference price is at or above 101.09% of the initial reference price, a cash payment directly linked to the performance of the underlying. The cash payment will equal (i) the product notional amount multiplied by (ii) (A) the final reference price divided by (B) the initial reference price. <u>However, if this cash payment exceeds EUR 1,200, you will only receive EUR 1,200 (the maximum payment);</u> - if the final reference price is at or above 75.00% of the initial reference price and below 101.09% of the initial reference price, a cash payment equal to EUR 1,010.90; or - if the final reference price is below 75.00% of the initial reference price, a cash payment directly linked to the performance of the underlying. The cash payment will equal (i) the product notional amount multiplied by (ii) (A) the final reference price divided by (B) the initial reference price.		
	Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.		
	The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying , the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.		
	You do not have any entitlement to a dividend from the underlying and you have no right to any further entitlement resulting from the underlying (e.g., voting rights).		
	Underlying	Ordinary shares of Albemarle Corp (ISIN: US0126531013; Bloomberg: ALB UN Equity; RIC: ALB.N)	Initial reference price The reference price on the initial valuation date
	Underlying market	Equity	Reference price The closing price of the underlying as per the reference source
	Product notional amount	EUR 1,000	Reference source New York Stock Exchange, Inc.
	Issue price	100.00% of the product notional amount	Final reference price The reference price on the final valuation date
	Product currency	Euro (EUR)	Initial valuation date 5 June 2024
	Underlying currency	U.S. Dollar (USD)	Final valuation date 5 December 2024
	Issue date	12 May 2024	Maturity date / term 12 December 2024

Intended retail investor

- The product is intended to be offered to retail investors who fulfil all of the criteria below:
- they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;

- they seek capital growth, expect the movement in the underlying to perform in a way that generates a positive return. They have a very short investment horizon;
- they are able to bear a total loss of their initial investment, consistent with the redemption profile of the product at maturity (market risk);
- they accept the risk that the issuer could fail to pay or perform its obligations under the product irrespective of the redemption profile of the product (credit risk);
- they are willing to accept a level of risk of 6 out of 7 to achieve potential returns, which reflects the second highest risk (as shown in the summary risk indicator below which takes into account both market risk and credit risk).

2. What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

 **The risk indicator assumes you keep the product until 12 December 2024. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may have to pay significant extra costs to cash in early.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		6 months
Example investment:		EUR 10,000
Scenarios		If you exit after 6 months (Recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	EUR 986
	Percentage return (not annualised)	-90.14%
Unfavourable	What you might get back after costs	EUR 5,828
	Percentage return (not annualised)	-41.72%
Moderate	What you might get back after costs	EUR 10,109
	Percentage return (not annualised)	1.09%
Favourable	What you might get back after costs	EUR 12,000
	Percentage return (not annualised)	20.00%

The stress scenario shows what you might get back in extreme market circumstances. The favorable, moderate and unfavorable scenarios have been calculated using 10,000 simulations based on the underlying asset's past performance and represent the 90th, 50th and 10th percentile outcomes, respectively. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Payments made to a client during the life of a product requires BBVA to make certain assumptions. This is for the purpose of undertaking scenario analysis and the calculation of product profitability as shown in the table. BBVA has decided not to capitalize these payments.

3. What happens if BBVA Global Markets B.V. is unable to pay out?

Banco Bilbao Vizcaya Argentaria, S.A. guarantees the payment obligations that the Issuer assumes in the Product, in its same terms. The Product is not covered by the Credit Institutions Deposit Guarantee Scheme or any other guarantee scheme. In the event that BBVA as guarantor could not pay, you would face a financial loss. In the event of the resolution of the Guarantor of such financial instrument (applicable process when the Guarantor is insolvent or it is expected that it will become insolvent in the near future and due to public interest and financial stability it is necessary to avoid its insolvency), such product could be converted into shares or its Nominal Amount and, as a result, you could incur losses on your investment.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% return).
- EUR 10,000 is invested

If you exit after 6 months	
Total costs	EUR 184
Cost impact*	1.9%

*This illustrates the effect of costs over a holding period of less than one year. For example, it shows that if you terminate at the Recommended Holding Period, assuming a net zero return after costs, your return could have been 1.9% before costs.This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 6 months
Entry costs	1.8% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 184
Exit costs	This product does not incur any exit fees if held until maturity. The exit fee in case of an early exit is defined in the section "How long should I hold it and can I take money out early?"	EUR 0
Ongoing costs		
Management fees and other administrative or operating costs	0.0% of your investment amount in respect of the recommended holding period. This is an estimate of the actual costs.	EUR 0
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 0

5. How long should I hold it and can I take money out early?

Recommended holding period: 6 months

This Product will mature on 12 December 2024. This Product doesn't allow the Client to cancel his investment before 12 December 2024. However, under normal market conditions, BBVA may facilitate to the client the price at which BBVA is able to buy it. Such a price will be calculated subtracting (i) from the fair value of the Product calculated by BBVA in accordance to the market variables and methodologies commonly used in market (ii) an estimated cost of 1.5% over the Nominal Amount. This anticipated sale may generate a financial loss to the Client.

6. How can I complain?

Customer Service. P.O. Box 1598. 28080 Madrid. e-mail: reclamacionesSAC@bbva.com. Telephone: +34 900 812 679. Web: www.bbva.es. For claims related to the sale or advice of this Product by an entity other than BBVA, please contact the entity which sold you or advised you about the Product.

7. Other relevant information

The figures included in this document (costs, performance scenarios..) correspond to the Recommended Holding Period and this is shorter than one year. For this reason, these figures are only comparable to the figures of other products that have the same Recommended Holding Period. For further information about the functioning and risks of this Product, contact the entity which advises you or which is going to sell the Product to you. Prospectus registered with the Central Bank of Ireland. The Product will be issued under the most recent version of the Prospectus of the Issuer, which is available on the website of BBVA (<https://shareholdersandinvestors.bbva.com/debt-investors/programas/structured-medium-term-note/>). The Client should also check the issue terms of the Product. According to the Prospectus, the Product is governed by English law and the Client submits to the jurisdiction of the English courts.
